

## District Governors November Newsletter

Fellow Lions,

Fall is slowly coming upon us. The leaves are changing colors, the ghosts and goblins have been put away for another year. Now, we should take some time to stop and reflect, think about what you have done for the first quarter of this Lions year. What can we do next?

I now have 1/3 of my visits complete, and it has been a wonderful experience. I have enjoyed visiting the clubs, meeting new lions. The friendship and camaraderie that is gained by these visits is priceless. I have also had the pleasure of inducting 10 new members this month. Keep up the great work you are doing. Your hard work and commitment is paying off. We currently have a net growth of 10 members as of October 31<sup>st</sup>.

PCC Peter and I would like to thank everyone who helped with the sorting and distribution of the books that we received from First Book Canada. There are no names, as I always run the risk of forgetting someone, and everyone's help was very valuable. There are still clubs who will receive books during my visits. The next time we should receive books, should be in May. There will be information sent out prior to the event.

I received an email from the Co-chair of the Lake Echo Terry Fox Run thanking the Lions Clubs of Chezzetcook and District, Lake Echo and Musquodoboit Harbour and District and the Lake Echo Lioness Clubs who held a very special event. It was a Halloween Theme Casino Night that raised \$7500.00 with the proceeds going to the Terry Fox Foundation for Cancer Research. This project took many hours to plan and organize. It required many volunteers to attend to all the details. The leadership of the Lions and Lioness noted above took on this challenge and completed it with great detail and pride. The clubs received individual recognition from the Provincial Director. Thank you for the great work you have done for to help cancer research. It is great to see many clubs working together to complete a project.

November 13 – 19 has been designated as “Worldwide Week of Service for Diabetes”, with November 14<sup>th</sup> being named Diabetes Day. There was a lot of information handed out at the Fall Cabinet Meeting or sent to the Clubs who were unable to attend. Please go through this material and plan an event related to Diabetes on that day, or during the week. Please share your photos and stories with the District and don’t forget to report this on your LCI Activity Report. Remember, Diabetes is now one of our corps projects.

My visits for the month of November are as follows:

|               |                   |                          |
|---------------|-------------------|--------------------------|
| 1 – Canso     | 15 – Tatamagouche | 22 – Musquodoboit Valley |
| 7 – Dartmouth | Branch Club       | 27 - Liverpool           |
| 8 – Coldbrook | 16 – Berwick      |                          |
| 9 – Pubnico   | 20 – Kingston     |                          |
| 13 – Hubbards | 21 – Chezzetcook  |                          |

Remember – Respect is a very powerful thing. If you respect your members, they will respect you in return.

November 11<sup>th</sup>, 2017  
Remembrance Day  
Lest We Forget

Namaste Lions.

Yours in Lionism,

DG Rhonda
